Pass/Fail	IHI modules* fmCASES* CLIPP cases* Professionalism (completed by hospice nurse and preceptor)

*The FM, CLIPP and IHI cases are suggested activities each week, but we will not be checking every week to see if you have completed them. The only requirement is that these are done by the end of the course. Many of the cases link up to assessments, so delaying the cases will likely affect your performance on the assessments. Saying that, as long as they are complete by the end of the course, you will have met the course requirements.

Weekly readings should be completed prior to the start of each corresponding teaching session.
